*Rhododendron 'Else Karger' (Azalea)*  
*Ruscus hypoglossum*  
*Salvia 'Royal Bumble'*  
*Tagetes lemmonii*  
*Teucrium fruticans*  
*Viburnum plicatum*  
*Weigela florida alba*

The ***Plectranthus ecklonii*** is a robust plant similar in appearance to a salvia, but it is happy in shade and around the base of other plants. It has vivid purple flower spikes and is a great addition to any garden. It is an old favourite but is now unusual except in old gardens.

There will be some other plants from the Nursery that have not been released at the time of compiling this list
