

Friends of Botanic Gardens of Adelaide plant sale at Mt. Lofty Botanic Garden on Sunday, 27th November, 2022 from 10.30am to 2.30 pm in the Chris Steele Scott Pavilion south of the Lower Car Park off Lampert Road, Piccadilly. There may be only a few of some plants available and there may be others not listed here.

No.	Botanical Name	Common Name	Origin	Label Text
	<i>Acis autumnalis</i>			A tough and hardy short bulbous perennial to about 10-16 cmH with fine leaves and up to 4 white bell-shaped flowers on a long stem summer to autumn. Prefers a light soil and sheltered position in full sun to dappled shade., Will gradually multiply. Lift and separate bulbs when they become crowded. Protect new growth from slugs & snails. Gained RHS award. Suitable for pots or ideal for a "fairy garden"
	<i>Acronycha oblongifolia</i>		NSW & Qld	An evergreen tree to 14m with a spread of 4m in its natural habitat with small white flowers and white, yellowish or blue fruits. Prefers rich moist soils in a protected position or may be grown in a pot and taken indoors from time to time. Drought & frost tender.
	<i>Adenanthos sericeus</i>	Albany woolly bush	Western Aust.	An upright evergreen shrub to about 3mH x 2mW with fine silvery leaves and small bird-attracting flowers. Most well-drained soils. Does well on front-line coast. May be trimmed to make it more dense and popular in pots for Christmas trees which can be brought inside in December.
	<i>Alyxia ruscifolia</i>		SA, NSW & Qld.	This species is a shrub to around 2mH but can get taller. Produces sweetly scented white flowers in spring and summer. Orange berries in autumn. Frost resistant but drought tender. Happy in alkaline or neutral soils and on coast. May be pruned to a neat hedge.
	<i>Baloghia inophylla</i>	Brush Bloodwood	NSW, Qld	A rare evergreen tree to 15m x 2m with glossy green leaves and white flowers 2 cm across in spring. Prefers well-composted soil in a warm position. Drought and frost resistant once established. Its sap was used on Norfolk Island as an indelible dye for marking fibres and for staining the timber of Norfolk Island pine.
	<i>Buddleja davidii</i>	Butterfly bush	China	An evergreen small tree or large shrub to 5mH x 3mW with arching branches and fragrant scented pink flowers in long terminal spikes in summer. Adaptable to most soils and conditions and drought and frost resistant.
	<i>Callistemon pachyphyllus</i>	Bottlebrush	Australia NSW	An evergreen shrub to 3m x 3m with deep crimson or green bottlebrush flowers to 10cm long in spring and summer. Prefers light to heavy soils with some summer water. Bird attracting.
	<i>Cardinocrinum giganteum</i>		E.Asia	A bulbous erect perennial plant to 3mH x 1mW with large white funnel-shaped fragrant flowers in terminal clusters. Prefers a deep, rich, cool soil in a protected position. Frost resistant but drought tender
	<i>Cornus sericea</i> "Flaviramea"	Yellow stemmed Dogwood	North America	A nice bushy habit and great autumn foliage that turns buttercup yellow once the leaves fall. The bright yellow stems are quite a sight. Prune hard every couple of years to keep the colour in the stems.
	<i>Correa glabra var. turnbulii</i>	Correa	Australia	An evergreen shrub 1mH with bell-shaped reddish flowers from autumn to spring. Prefers well-drained soils in a dappled shade or morning sun position. Prune occasionally or pick flowers to keep bush dense. Occasional summer water. Frost tolerant. Bird-attracting.

	<i>Diospyros scabrida</i>	Coastal Bladderwort or Vaswartbas	S. Africa	A quick-growing evergreen shrub to 2-3mH x 1.5-3mW with a compact habit and attractive glossy dark green foliage and white/cream scented flowers. Full sun to semi-shade. Any well-drained soil. Drought resistant and frost-hardy. Often used as a hedge. Grows well at Wittunga Botanic Garden.
	<i>Dodonaea baueri</i>		Southern SA endemic	A prostrate shrub to 1mH x2-3mW with small yellow flowers from December to March. A hardy, drought tolerant plant, best in full sun.
	<i>Eremophila "Summertime Blue"</i>		Australia	Evergreen shrub to 2m x 2m with masses of lavender blue flowers in summer., Well drained clay or loam soils. Full sun to part shade. Needs little water after establishment on Adelaide plains. May be clipped lightly after flowering.
	<i>Euonymus fortunei var. radicans</i>		China	A nice foliage plant with variegated leaves which makes a great hedge or single specimen. Full sun Responds well to regular watering, Most soils, frost and drought resistant.
	<i>Flindersia australis</i>	Australian teak	NSW & Qld.	Often used here as an indoor plant but needs to be refreshed outside from time to time. In garden it may grow to a height of 30m x 4mW. Semi-deciduous. Has large attractive pods segmented into 5 sections. Frost tender.
	<i>Forsythia x intermedia</i>			A vigorous medium deciduous shrub with an amazing display of golden yellow flowers in spring. Moist alkaline, acid or neutral soils in an open sunny or part-shaded position.
	<i>Fuchsia coccinea</i>	Scarlet Fuchsia	Brazil	A fast-growing shrub that can vary in habit according to its habitat. In good conditions in shade it can grow up to 3.5mH, but is best pruned after flowering. It bears scarlet flowers, mainly in summer and requires fertile, well-drained neutral soil. Some shade in summer is useful but plenty of light is needed in winter. The fruit is edible. Frost and drought tender.
	<i>Guichenotia ledifolia</i>		W. Australia	An evergreen shrub to 0.3mW x 0,8nH with loose heads of 5 petalled mauve flowers from winter to spring. Prefers light soils in an open sunny position. Frost resistant.
	<i>Hebe hartii</i>	Veronica	NZ	A clump-forming hardy perennial 0.5-1mH with clusters of white flowers in late spring and early summer followed by conspicuous seed capsules. Suited to most well-drained soils.
	<i>Jovellana violacea</i>			An upright mound-forming shrub 1.5-2m h x 0.5mw with clusters of pale lilac flowers in Spring/Summer. Full sun to part shade in well drained soil. Protect from frost. Unusual plant, rare in cultivation. Ideal potted plant. May be grown in a pot in good light indoors.
	<i>Lavandula</i>	Lavender		
	<i>Lonicera nitida</i>	Bos leaf Honeysuckle	China	This honeysuckle makes a magnificent clipped hedge, responds well to regular clipping and can also be used for creating topiaries. Best clipped to about 1m in height. Drought tender
	<i>Murraya paniculata</i>	Orange Jessamine	Malaysia	A medium sized evergreen shrub with perfumed white flowers in spring and summer. Prefers full sun to part shade in well-drained soil. Prune after flowering. Often used as a clipped hedge or screen. Frost and drought tender.
	<i>Myoporum parvifolium</i>	Creeping Boobialla	Australia	A prostrate evergreen groundcover to 1mW with small white flowers in summer & autumn. Light to heavy well-drained soils in an open, sunny position. Occasional summer watering.

	<i>Nepeta "Walker's blue"</i>	Catmint	Europe	A hardy groundcover with grey leaves and spikes of blue tubular flowers in spring and summer. Suited to most well-drained soils in an open, sunny position. Prune after flowering. Attractive to bees, butterflies and cats.
	<i>Olearia picridifolia</i>	Daisy	WA, SA & Vic.	A small spreading shrub to 50cmH with blue daisy-like flowers from July to November. Occurs in mallee & heath areas in south WA and south-east of SA. Open sunny position with occasional summer watering. Most light well-drained soils.
	<i>Olearia scillionensis</i>	Perennial daisy		A evergreen shrub with small leaves and masses of white daisy flowers. Well-drained soil in an open position. Good in perennial borders.
	<i>Ozmanthus fragrans</i>	Sweet Osmanthus	Himalayas, China & Japan	An evergreen shrub about 2-4mH x 1-2mW with an exceptional strong perfume. The flowers can be used in tea to infuse the lovely aroma. It is relatively cold and drought hardy and responds well to regular pruning. The new growth is a lovely red colour.
	<i>Philadelphus subcanus</i>		China	A medium upright deciduous shrub with fragrant white flowers in spring or summer. Most well-drained soils.
	<i>Salvia greggii "Sierra Coral"</i>			A small evergreen shrub with bright orange flowers with a white throat in spring and summer. Well-drained soil in full sun to part shade. Frost hardy. Attractive to bees and butterflies.
	<i>Teucrium fruticans</i>	Bush Germander	S. Europe	An evergreen shrub with silver-grey leaves to 1.2mH x 1.5mW with blue tubular flowers. Prefers a well-drained open position. Drought resistant but frost tender. Sometimes pruned to a low hedge.
	<i>Ternstroemia gymnanthera</i>		SE Asia	Evergreen tree to 5m x 2.5mw. with white flowers and clusters of red berries. Prefers cool. Light, well-drained acid soils in a warm position. Frost resistant but drought tender.
	Tomatoes			Seedling Tigerella & Black Cherry

Late additions

Aquilegia vulgaris	200mm pots in flower
Buxus microphylla var. japonica	150mm pot
Cornus sericea 'Flaviramea'	200mm pots in flower
Digitalis purpurea	200mm pot in flower
Forsythia x intermedia 'Pringold'	200mm pot
Fuchsia procumbens	100mm pots
Ginkgo biloba (grafted)	200mm pot (\$30 each)

Heleborus x hybridus	125mm pots
Hippeastrum papilio	200mm pots (\$40 each)
Kunzea pomifera	150mm pot
Mixed varieties of corn plants	125mm pot
Ophiopogon japonicus	100mm pots
Ophiopogon japonicus 'Nanus'	100mm pots
Podolepis jaceoides seedlings	tubes
Teucrium marum	200mm pots
Xerochrysum bracteatum	seedlings in tubes,
Xerochrysum bracteatum	300 mm pots with about 12 seedlings
